

Jempsons Shopping Scheme

Although some of you will already be aware of this, you may be interested to know that Jempsons has today started a phone-from-home shopping scheme which may be particularly useful to those members having to self-isolate.

The phone number to ring is 01797 226044 . Leave name and address and tel no on an answering machine and then someone will call you back and ask for your order. It is of course likely to be busy at first but may well prove worth persisting with and certainly avoids you having to queue up with lots of others at a supermarket !

Please let others who may not be on email know about this facility.
